
Stephen Cole Biography 2013

Stephen is a third year veterinary student at the University of Pennsylvania. In 2011 he received his Master's degree in Biology from the College of William and Mary with a focus on Microbiology. His research interests include molecular epidemiology of emerging diseases, microbe and host interaction and One Health approaches to controlling infectious disease. His current work is elucidating the relationship of antimicrobial resistance to the population structure of the dog pathogen *Staphylococcus schleiferi*, but has also worked with *Salmonella*, *Yersinia* and *Streptococcus* in the past. He would like to pursue a career in clinical microbiology and academia. Please feel free to contact him at scole@vet.upenn.edu.
