

The following labs have given permission to share this information broadly. The list was compiled from a survey to discover which AAVLD and NAHLN laboratories currently offer to the public COVID -19/SARS-Cov-2 PCR testing on animal specimens. The survey was closed 4.24.20. It does not contain information from labs that did not respond or labs that responded confidentially. This document is a list only; please refer to the [AAVLD Guidance for SARS Testing in Animals 4.15.20](#) on our website.
