### Caitlin Sullivan Biography 2013

I was raised in California and received a B.S. in Biology and a B.A. in French from UCLA in 2010. In 2011 I moved to Kansas to begin my veterinary studies at Kansas State University College of Veterinary Medicine. Last spring I was commissioned as a Second Lieutenant in the United States Army Reserves, and upon graduation in 2015 I will begin my active duty service in the U.S. Army Veterinary Corps. Perhaps my greatest passion is traveling, and I am a member of the International Veterinary Students' association and Exotic Animal Medicine Club which helped to facilitate my international veterinary mentorships at an animal hospital in India in 2012 and a zoo in Israel in 2013.
