

Dr. Nandita Mirajkar, B.V.Sc. & A.H. (D.V.M equivalent)

PhD student in Veterinary Medicine – Infectious diseases,
Dept. of Veterinary Biosciences, University of Minnesota.

Short bio:

I have completed my DVM from Bombay Veterinary College, India. I am currently pursuing a PhD in Veterinary Medicine – Infectious diseases at the College of Veterinary Medicine, University of Minnesota with a special focus on diagnostics. My research interests include the application of classical and molecular microbiological methods in developing and validating diagnostic tests and the application of molecular methods to study the epidemiology of animal pathogens, particularly *Brachyspira* spp.
