

Best Oral Presentation 'Nanny Wenzlow'

Nanny Wenzlow, obtained her DVM in 2003 from the Université de Liège (Belgium). Then she pursued four years of residency in anatomic Pathology first at the VetSwiss Faculty Berne (Switzerland) and then at the Royal Veterinary College in London (UK).

Dr. Wenzlow worked there for a few months in a private diagnostic lab as anatomic pathologist before joining the Department of Infectious Diseases and Pathology at the Veterinary School in Gainesville, Florida as Clinical Instructor for Anatomic Pathology. In 2013, during her PhD, Nanny had the once-in-a-lifetime opportunity to train for two years as a fellow for Forensic Veterinary Pathologist which makes her uniquely trained and the first official certificate holder for forensic veterinary pathology. Finally Dr. Wenzlow received her PhD from the University of Florida in the spring of 2016.
