

Best Poster Awardee 'Elizabeth Houston'

Elizabeth Houston grew up in Glastonbury, Connecticut. She pursued a Bachelor of Science in Pathobiology at the University of Connecticut, where she graduated in 2015 with honors. During her time at the University of Connecticut, she did research on molecular diagnostics of Clostridium perfringens under Dr. Joan Smyth.

Elizabeth is currently a second year student pursuing a concurrent DVM/ graduate degree at Iowa State University College of Veterinary Medicine. Under the tutelage of Dr. Pablo Pineyro, she researches swine diagnostics. When not in the lab or classroom, Elizabeth enjoys hiking and riding horses.
